

# Ramón Paynter Portuese

## Data Analyst

Data analyst with a background in healthcare, skilled in guiding decisions by deriving connections from different data sets, noticing trends, and using valuable insights to turn obstacles into solutions. Improve business decision-making by way of comprehensive reporting along with visualization of data that forecast a multitude of needs all focused on solving problems.

### PROJECTS:

#### Flavors of Cacao Analysis

-Solved product problems by Studying product data using Python, Excel, Tableau, and Pandas to find ways to make it better, thus resulting in improved product quality and valuable insights for enhancement."

#### Instacart Customer Analysis

-Overcame key customer issues, analyzed customer data using Python, Pandas, and Matplotlib to understand trends among different groups. Provided insights into customer behavior based on the demographics.

#### Retail Inventory Analysis

- Faced inventory challenges. Then generated recommendations to improve company strategy by evaluating and providing guidance on pricing, marketing strategy that was based on location, and staff recommendations, refined the strategies and had inventory success.

### EXPERIENCE

#### ***Ardent Health and Rehab- Recreation Director - August 2021-Present***

-Was faced with caseload and HIPAA challenges, developed strategies to maintain HIPAA compliance, thus keeping data privacy secure and earned a great review during survey for Recreation Department.

#### ***Eben Ezer Lutheran Care Center- Social Worker - April 2020-August 2021***

-Dealt with mental health and behavioral challenges for residents that was compounded by the impacts of the COVID-19 pandemic. Served as a liaison and advocate for families and residents. Adapted to challenges and improved psychosocial wellbeing for residents.

#### ***Valley View Villa – Recreation Director - June 2018-April 2020***

- Was faced with staffing issues and resident concerns regarding recreational planning. Adapted and hired more team members as well as modified recreation calendar. Then had satisfied residents and team members.
